

FlexHD
PLIABLEPRE®

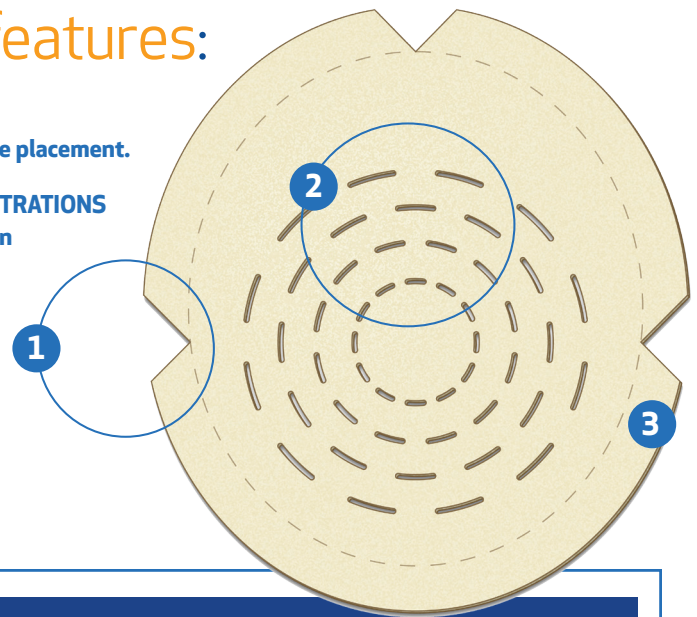

We're a cut above...
because we go **deeper.**

The only deeper cut dermal graft available;
designed for surgeons, by surgeons.

FlexHD Pliable grafts are the only ADMs procured from a cut in the reticular dermis where the structure is more open and porous, compared to the papillary dermis from which other ADMs are derived.

Each FlexHD Pliable PRE graft features:

- 1** **AXIS CUTOUTS** guide placement.
- 2** **CONCENTRIC FENESTRATIONS** allow graft expansion
- 3** **FOLD-UNDER CUFF** provides superior reinforcement.

FlexHD Pliable PRE

Thickness	Size	Graft Area	Order Number
0.7-1.4 mm	S (17.5 cm x 20 cm)	268 sq cm	PP0001
1.5-2.2 mm	S (17.5 cm x 20 cm)	268 sq cm	PP2001
