Soft Tissue, Aesthetics and Reconstruction

# We Save and Heal Lives

We are honored to do work that is both lifesaving and life changing.

As a not-for-profit organization founded by surgeons for surgeons,

MTF Biologics serves as the industry's high-quality benchmark for tissue solutions and donor selection. We work continuously to move beyond the expected solutions, investing in research that advances the science of allograft tissue transplantation while respecting each tissue as a gift to be deeply valued..

[Continued on next page.](#)

# About MTF Biologics

## Governed by Surgeons

MTF Biologics was founded by surgeons and remains governed by surgeons today. Our Surgeon Boards guide our decision-making and ensure that the level of MTF Biologics tissue quality is unmatched in the industry. It's simple. We are innovators, industry leaders and patient advocates dedicated to saving and healing lives by honoring the donated gift, serving patients, and advancing science.

## Donor Selection

We lead the industry in donor screening and selection criteria. Our process is set by our Medical Board of Trustees and is based on what they deem to be best for their patients. Screening donors thoroughly is critical. Because when you start with better tissue, you end with better tissue.

## Tissue Processing

MTF Biologics' process balances safety with quality by ensuring the preservation of inherent biological properties of the tissue. Our processing avoids the use of harsh chemicals and terminal radiation which can damage tissue integrity and lead to suboptimal clinical outcomes. Aseptic processing employed by MTF Biologics maintains the most natural tissue, offering exceptional biocompatibility with the recipient host tissue.

## Orthopedics

From bone void fillers to spinal spacers to allograft tendons, we offer a depth and breadth of allograft options unmatched in the industry. Using minimal processing to maintain biomechanical integrity and biochemistry, we are known for superior outcomes for every graft, every time. Led by surgeons who are clinical specialists, we have become a force in scientific progress and patient advocacy.

## Plastic, Aesthetic and Reconstructive Surgery

MTF Biologics offers a full portfolio of allograft solutions for reconstructive surgery, aesthetic, craniofacial, soft tissue reconstruction, and wound repair applications. We challenge the limits of allograft innovation every day, harnessing the power of science to drive better outcomes. Whether for soft-tissue reinforcement, acute or chronic wound repair, rhinoplasty, fat grafting, or nonsurgical volume restoration, you can be assured that our portfolio sets the standard for quality, safety,

and integrity. Our not-for-profit status frees us to invest in the science of tissue transplantation, and our allograft solutions—in a variety of shapes, sizes, and forms appropriate to specific surgical outcomes—can enhance appearances and heal native tissues in less time and at less cost. Our multiple, peer-reviewed, level 1 clinical outcomes studies are proof that our treatment approaches work. The progress we make not only moves science forward; it helps heal and save lives.

# Split Thickness Skin Grafts

## Cryopreserved Split Thickness Skin

MTF Biologics continues their strategic partnership with Solvita (formerly Community Tissue Services) to serve more patients with life-saving split thickness skin grafts for acute burn wounds.

The partnership leverages MTF's vast network of relationships with recovery programs, shares best practices in processing technology, and utilizes Solvita's distribution channel to ensure best-in-class tissue along with enhanced availability.

To place an order for split thickness skin grafts, please contact Solvita Customer Service at Phone: (800)-684-7783 or [tissuecs@solvita.org](mailto:tissuecs@solvita.org).

# Return Policy

Due to the unique nature of donated tissues and the preservation techniques used, MTF Biologics maintains the following return policies:

### All Tissue

Tissue may be returned for credit in the following instances without a restocking fee:

- **Tissue does not meet MTF Biologics published specifications:**

*Note: Claims of unsatisfactory specifications must be reported to MTF Biologics within 30 days of the date of invoice to be eligible for return.*

- **Tissue/packaging is damaged in shipment:**

*Note: Claims for damaged tissue packages must be reported to MTF Biologics within five days of receipt of tissue to be eligible for return.*

- **Order discrepancies:**

*Note: Claims for order discrepancies must be reported to MTF Biologics within five days of receipt of tissue to be eligible for return.*

### All Frozen & Refrigerated Tissue

In order to maintain strict quality control protocols, there is a no-return policy for all frozen and refrigerated bone and soft tissue, unless returned for a condition stated above.

### Fresh MOPS Osteochondral Grafts

In order to maintain strict quality control protocols, there is a no-return policy for fresh MOPS osteochondral grafts, unless returned for a condition stated above.

### All Other Return Claims (U.S. Only)

All other return requests must be made within 30 days of the original invoice date and will be subject to a restocking charge of 20% of the cost of the tissue. Freight charges will not be credited.

All returns must be accompanied by a Return Authorization Number (RA#).

Authorization can be obtained by contacting MTF Biologics' Customer Service Advocates at **1-800-946-9008 extension 2307** or via email to [Customer\\_Service\\_Advocates@MTF.org](mailto:Customer_Service_Advocates@MTF.org)

#### **Customer Service Advocate hours:**

Monday – Friday 8:15 AM to 5:30 PM, EST

# Corporate Partners

We collaborate with a variety of other medical manufacturers and distributors to provide quality allografts under a partner's custom or private label. You can be sure that the integrity and high standard of MTF Biologics is well represented in the healing solutions offered. From soft tissue allografts to meniscal allografts to acellular human dermis for wound coverings, our presence within a partner's portfolio signifies our commitment to providing safe, high quality healing solutions the first time, every time.
