

FlexHD[®]

PLIABLE
PERFORATED

MTF continues its tradition of **INNOVATION** in breast reconstruction by introducing larger perforated graft sizes...

NEW 12x20, 16x20 AND the largest perforated graft available on the market: 20x20!

Sizes That Fit Your Needs

Larger perforated grafts allow for optimal use as

- ✓ A traditional sling to accommodate larger implant volumes
- ✓ A wrap in pre-pectoral breast reconstructions

Strategically Placed Perforations

FlexHD Pliable Perforated is the only ADM on the market with perforations strategically placed on the lower portion of the graft. You can trust FlexHD Pliable-Perforated to provide upper pole coverage while allowing:

- Better drainage and egress of fluid
- Better tissue in-growth and incorporation
- Reduced seromas
- O.R. time savings

TRUST

- More than 7 million allografts distributed worldwide
- 30 years as your trusted tissue source

INTEGRITY

- Non-profit
- Founded and governed by surgeons

INNOVATION

- First pre-hydrated ADM
- Same donor, same thickness Breast Kits since 2012
